Untreated wood gets its unique character due to the naturalness. Colour or structure variations from the samples shown are standard and have to be accepted. The wood will get a desired patina overtime with daily use, which emphasizes the character of the wood. For further care please notice the general wood information. Puttied areas may have a different colour appearance depending on the surface. For example, dark putty can look lighter on untreated wood.

Concrete table top:

	Concrete	Our concrete table tops are made of poured concrete. Their low material thickness with high stability is achieved by a glass fibre reinforcement. The concrete table top is coloured throughout and the surface is oiled. Due to the open structure, colour shading may occur on the surface. The table top is light, UV and weather resistant.

Each piece of furniture is handmade and unique. Deviations to the listed measurements may be caused by:
1. different upholstery materials (fabric, leather), 2. processing of ticking mats, 3. the pressure to combine individual parts, etc.
The seat comfort of a sofa type with larger seat depth usually differs from one with lower depth.

Keep all documents relating to the purchase of your furniture carefully, even beyond the legal warranty period of 2 years. You will find all important information in your product folder and also on our website www.bullfrog-design.com
